Committee Recommends Mission Bay Proposal

Ocean Beach special committee on Mission Bay and other local aquatic improvements, at a meeting called by Chairman J. F. Roberts at the Woman's clubhouse Monday evening, voted to recommend the city's proposed plan for development of the Mission Bay area into an aquatic park. On invitation of the committee City Planning Director Glenn A. Rick presented the plan in detail and showed a map of the project. (A copy of the map is on display in The News window here.)

The motion as carried recommended the Rick plan be submitted to the various civic groups and organizations of Ocean Beach for their consideration and action. A tentative date of Jan. 5 was set for the next meeting of the committee. Besides the committee a large group of other local civic leaders were invited to sit in on the meeting.

To Take Out Bridge

"I propose to take out the present Ocean Beach-Mission Beach bridge," said Rick. "The reasons are to provide an unimpeded entrance for yachts and other boats to the yacht basin of 186 acres just inside the present southern neck of Mission Beach. Either a high bridge or a draw-bridge would be impractical and costly and the former would mean tremendously long approaches to the bridge. A tunnel also would be impractical.

"Instead three small bridges would be constructed to care for traffic between Ocean Beach and Mission Beach, one to be over the river channel and the other two to bridge the water gaps leading thence to Mission Beach amusement center, where the road would tie in.

"I believe the advantages of such route and bridges would far outweigh the disadvantage of the longer distance, and I have no hesitancy in recommending the change."

Rick called on Assemblyman Fred Kraft to present his views. Kraft said the main objections seemed to be possible reduction in business volume to Ocean Beach business houses, and possible unsanitary, mosquito-breeding stagnant water pockets that might result in the proposed river channel. He proposed a public mass meeting soon of Ocean Beach citizens to discuss the proposal.

Women To Push War Bond Sales In Women's Week

Women of Ocean Beach are being urged to push the sale of war bonds to be given to wounded and ill servicemen in the Naval hospital as their main observance of "Women's Week," which the city has set aside for Dec. 9 to 16, Mrs. C. W. Early, president of the local Women's club announced this week.

Carrying out a plan formulated at a city-wide meeting, held Monday in the city council chambers, which she attended representing the club, Mrs. Early was asked to get Ocean Beach women to place bottle or jar containers in the local stores, into which the public can place their contributions to this cause of providing worth while Christmas gifts of war bonds to the servicemen.

Another part of the plan is to have representative local women explain and make the appeal at the various church services the coming Sunday, wherever such arrangements can be made.

LOCAL DIRECTORIES TO BE DISTRIBUTED SOON

Distribution of Ocean Beach Business and Professional directories for 1945 will be made in this area within a few days, announces N. B. Wright, local resident, who sponsored the enterprise.

The directories will be distributed to residents here by merchants who purchased advertising, he says. All businesses and professions are represented in the pocket-size books, and the book also lists emergency calls such as fire, police, doctors, life guards and other services.

POLICE CAR DAMAGED BY ONE BACKING FROM CURB TUESDAY FORENOON

While cruising in their police car, Officers R. J. Karrow and F. A. Fish of the local police station, at 11:35 a. m. Tuesday, were backed into by a car driven by Elizabeth Hutson. They report she was backing away from the curb between Bacon and Abbott on Newport Ave. and damaged the police car to the extent of \$15. Their investigation revealed she had no driver's license and that the car was registered in the name of R. S. Baker, also of 3913 Greenwood St., according to the report filed. She also was charged with violation of the traffic rule that requires a driver to make sure that the street is clear of moving traffic when backing a car from the curb.

USO News

(By Mrs. Georgia Brock)

Each week we try to tell something of the activities of the USO club in Ocean Beach, but it is impossible to give all the details. The club means something different to each serviceman and woman who use it. Probably what is most appreciated is the underlying atmosphere of friendliness and hospitality to those in uniform. One man may enjoy the club because he can relax in peace and quiet in a comfortable chair in the lounge and take advantage of all the books and magazines. Another may prefer to listen to recordings or play a game of ping pong or pool; while others do their letter writing in the writing room, where stationery is furnished for their convenience. Nearly all stop at the canteen for refreshments. Appreciation is expressed by all who come for relaxation, so the need for a USO clubroom becomes more and more apparent as time goes on.

More small Christmas packages for the boys are urgently needed. The time is getting short, so please bring yours to the clubrooms, 5017 Newport, as soon as possible.

A Christmas Eve party will be given Sunday night, December 24, with gifts for each serviceman and woman attending and the singing of Christmas carols.

A Christmas night dance will be on the program sponsored by the Ocean Beach Post, American Legion.

OFFICERS BELIEVE BOY SHOT CAR HOLES IN ORDER TO SHOW HIMSELF TOUGH

A 15-year-old boy who evidently was trying to show himself tough to his pals is believed by the local police detectives to have shot three holes in a stolen car in which he was found early Tuesday morning parked in a drive-in cafe lot at Roscerans and Midway Dr. Officers W. E. Gore and C. O. Davis, who arrested the boy, said he admitted having escaped from the Anthony Home in Mission Valley and had been sleeping in the auto in secluded spots.

The lad also admitted taking the car, which was registered to a Linda Vista man and to having taken numerous articles from other cars and stored same in the car he was occupying when arrested. Among the stolen articles was \$1110 in war bonds.

The lad was turned over to the juvenile authorities for further investigation and action.

G. W. LIBHART OPENS NEW GROCERY STORE AT PT. LOMA AVE. AND EBERS

Glenn W. Libhart, who had formerly been employed at the Convaire factory, on Dec. 1 opened a new grocery store, particularly for the Azure Vista and southern Sunset Cliffs section of Ocean Beach, in the former Sunset Cliffs Tract office located at the corner of Ebers St. and Point Loma Ave. He announced that he will handle meats as well as groceries, fruits and vegetables. Libhart lives with his wife and one daughter at 4658 Coronado Ave.

Kiwanians Hear Of Problem Of Released "G.I. Joe"

Ocean Beach Kiwanians, at their meeting of Tuesday night were given an insight into the enormity of the problem of getting "G. I. Joe" fitted back into civilian life, especially the "G. I. Joes" who are disabled either physically or emotionally, in a talk given by Harry Shiersen, counselor at the San Diego Vocational School and Junior College at the Spreckels building. His subject was "G. I. Joe Is Coming Home," and he was introduced by H. H. Hartvigsen, program chairman for the evening. More than 1,000,000 servicemen already have been mustered out in this war, he said, and of this number around 350,000 are disabled. Here in San Diego they are being released from the armed forces now at the rate of 2,500 a month.

"We are trying to provide a one-stop center at our school for the servicemen," he said, "and we have various kinds of courses to teach them and to help them to get a job."

Other agencies helping with the problem, he listed as the U. S. Employment Service, the Veterans Administration, the State Bureau of Vocational Rehabilitation, the Veterans Coordinating Council and the public schools.

What is needed most right now, he said, is to survey these released "G. I. Joes," to survey the field to see what jobs are available, and to arrange greater cooperation among the agencies seeking to solve the problem. More trained counselors also are needed, he pointed out.

Guests at the meeting were the five members of the championship basketball team that took part in the Davis building tournament finals with La Jolla As team Thursday night, the five being Jay Timmons, Bill Hamlin, Bill Stone, Bob White and Alan Blackwell. They have played the season under the team name of "Stone's All-Stars." To the winners of the championship, the Kiwanis club will later present individual basketball trophies that the club has bought. Rev. J. F. Roberts introduced the quintet to the club.

Speaker for the next meeting will be Capt. MacMillen, an army sanitary officer, now stationed at Camp Callan, who will speak from experience on the subject of "Sanitary Conditions in the South Pacific." Donald Cochran is program chairman for the evening.

Art Pupils Make Yuletide Projects For Servicemen

(By Miss J. D. Brodie)

Art students at Pt. Loma high school are called on each year to make projects for the servicemen through the Red Cross. This year students in the Art Structure class have designed Christmas greeting cards for the boys in the Naval hospital. These cards have been done from linoleum blocks and stencils. Through cooperation of the print shop at Pt. Loma more than 700 cards were sent to the hospital for use, reports James Devore, the printing instructor.

In the Representative Art class menu covers were designed for the Christmas day dinner for men on ships. Twelve hundred of these were printed by the print shop from the linoleum blocks. Students whose designs were used include Tom Wilson, Muriel Mellon, Norma Castanien, Irene Kimball, Eileen Eulberg and Rita Strickman.

One of the most interesting and unusual projects now receiving finishing touches, according to Miss Willa B. Brodie, instructor in charge of these various art activities, is the designing and making of holy creches for the Naval hospital. With the scarcity of Christmas trees it was decided to use these creches as decorations. In the Stage Design and Craft classes 18 creches are being completed. These are made of 3-ply wood and will be hand painted. They include Mary, Joseph, the Christ Child, angels, lambs, manger, trees, stars, and other symbols of the Holy night. Students who made original designs for these are Jim Hiltz, Mary Doyle, Doris Dippolett, Mary Lester, Allie Lou Estes, Hale Hamilton, and Jean Pippin.

William Neujahn Sr., 71, succumbed Saturday at 10:45 a. m. in Navy hospital, to a heart attack. He had entered the hospital just the day before. Date of the funeral will be Monday, with services conducted by Father Edward Hanlon at Sacred Heart Catholic church. The American Legion will be in charge, members of which will serve as pallbearers.

Mrs. Margaret Fisher, 4770 Niagara Ave., reported that she had found not less than five of her letters, one from her service husband overseas, around her yard, the letters having been ripped open and strewn around the place, all of which evidently had been taken out of her mail box.

Her neighbor, Mrs. Norma Clark, of 4770 1/2 Niagara Ave., also had found mail of hers that had been tampered with in the same way.

WATCH THOSE WAR BONDS!

If Better Business Bureaus in California have their way, swindlers in this State will find the going far more rugged than they did at the end of World War I, when millions of dollars were lost to racketeers.

Already, warns the public protection bureaus, confidence men and promoters of worthless enterprises are watching the War Bonds and other savings mounting in the hands of the public with covetous eyes. Age-old rackets are being dusted off and given a modern twist in order to transfer other people's hard-earned savings to the pockets of the "gyp" artists.

On the theory that "forewarned is forearmed," the Better Business Bureaus recently compiled a list of more than 750 types of rackets and schemes used by swindlers to prey on the public for the past 30 years. The list is being circulated as a part of a broad educational program to make the average man a wiser purchaser of goods and a more careful investor of savings.

Investigate before you part with your money, say the bureaus, because "the law can only lock the door after the horse is stolen." Better still, if you have any funds to invest, remember that the best buy today is United States War Bonds.

Jim Butts Of Ocean Beach Is Paid Tribute

From C. Boone Sadler, 4844 Del Mar ave., The News this week received for publication the following letter of special interest to servicemen and families.

"I would like to add a few names to your Honor Roll. But first a word about Jim Butts, former Scout in Troop 28 of which I was the Scoutmaster. Jim was born while his father, Wendell M. Butts, was in France as an officer with the U. S. Army Engineers. Wendell was wounded several times but seemed to recover, only to die in 1930 as a result of his battle experiences.

"After graduation from high school Jim attended and graduated from the State Nautical school as engineer. Early in the war Jim was on a cargo vessel which was torpedoed. Jim got his watch to the top-side and into a life boat of which he was in command. He called the roll—one man was missing—Jim commanded the boat to shove off. While he went below to hunt for his missing man a second torpedo came aboard sinking the ship. His life boat with all hands safe was later picked up by a passing ship. There has been erected on the training ship "California State" a gold plaque to his memory and courage. When the news of his death became known, his mother, Mrs. Marybelle Butts, became a member of the WACS.

"I suggest the name of Clifford Case, one time Vicar of Trinity Episcopal Mission, who would not allow his clerical deferment to stand between him and the draft. He is now in the Army down under.

"Sam Nix, member of the Sea Bees, served down under, now home on leave, lives near Coronado and Ebers st.

This week we had 49½ dozen cookies and a beautiful birthday cake baked by Miss Dorothy Shaw. It was greatly admired at Red Cross Headquarters and Miss Nye said they could have used two birthday boxes.

The Red Cross is badly in need of new Christmas tree light bulbs. If you have a box or only one or two extra, get them to the Red Cross.

More and more casualties are arriving and more boys to be cheered. Please hurry with your Christmas boxes and any article you wish to give we will pack at the Center, 4769 Del Monte ave.

To the People of this Community

Five billion dollars of the 14 billion dollars our country needs to press the war against our enemies must come from individual investors. That sounds like, and is, a lot of money. Actually success or failure of the Sixth War Loan is up to each individual American.

Every war loan has been oversubscribed because Americans by the millions have shared its responsibility. Americans such as you have recognized the need of extra War Bond purchases over and above their normal payroll savings.

There is no such thing as a little fellow in a War Bond drive. Your War Bond purchases, multiplied by the War Bond purchases of your friends and neighbors, become fighting power which saves lives of Americans on the battlefronts and brings us nearer our common objective.

REMEMBER the gaping holds of ships sunk without warning at Pearl Harbor? Remember, too, the men killed during the infamous sneak attack? This is the fight that *Japan* started... the fight that *we're* out to finish!

Don't fool yourself, the Japs are tough. It will take long, bitter, costly fighting to blast them out. It will take new and specialized equipment. B-29 Superfortresses... amphibious tanks... airplane carriers... P-47 Thunderbolts and new secret weapons. And a veritable *Niagara* of oil and gasoline!

Your War Bonds helped train and feed and equip the American armies that smashed through at St. Lo... Nancy... Sedan. Yes... your War Bonds are helping to win the *Battle of Europe*. But now how about the *Battle of Japan*?

The job is big—you've got to dig!

It costs billions of dollars a month to fight the *Battle of Japan*. The money *must* come from every patriotic American. It's an investment in America—your future. That's why you are asked once again—in this great battle for final Victory—to buy *your* extra \$100 Bond *today*.

And here are 6 more reasons

GOD IS MY CO-PILOT

By COL. ROBERT L. SCOTT

WNU Features.

CONT. FROM LAST WEEK

SYNOPSIS

CHAPTER I: Scott's early experiences with gliders and airplanes. He goes to Ft. McPherson and enlists in the regular army as a private.

CHAPTER II: Scott wins the West Point competitive exam and gets a furlough before reporting. He is graduated as a second lieutenant of infantry and goes to Europe, which he tours on a motorcycle. He sells his motorcycle and arrives at Randolph Field, Texas.

CHAPTER III: Scott makes his first solo flight. Drives 1,300 miles to Georgia over every weekend to see his girl. Scott is now graduated from Kelly Field and has wings pinned on his chest. Ordered to report to Hawaii but wanting to get married he lays his plight before the General and is ordered to report at Mitchell Field, N. Y., instead.

CHAPTER IV: En route to New York Scott is stopped by police who mistake him for a bandit. He carries the mail for Uncle Sam in order to gain more flying time, and gets married.

CHAPTER V

By this time, war with certain countries appeared imminent. I had always believed that we would fight Japan, and had always believed that Japan would make the first thrust. And I tried to "figure out" every cadet that came through our school—tried by talking to him to find out whether or not he had the urge for combat, for I knew that the urge was positively necessary. Not only did a man have to have that certain incentive to fly and keep on flying, until flying became second nature, but he had to have the definite urge for combat. When he learned to fly automatically he would control the ship without thinking about the controls and have his mind free to concentrate on navigation and the aiming of his guns—besides watching his tail for the enemy.

I talked with the cadets many times, and I was surprised to find that a lot of them still thought it was wrong to want to get in the air against any enemy and fight. Sometimes I was disappointed to find that men lacked fighting instinct for the coming war. Youngsters seemed to think that combat was unnecessary. Many of them, it seemed to me, were learning to fly merely for the high-paying airline jobs of the future. But as time went on, I changed my mind. There would always be a few who didn't want to fight, there would be some who were uncertain, but from their attitude as the war tension increased I knew that when war came, as it inevitably would, these youngsters in the

fighting ships of America would do their part.

From Ontario I went to Lemoore, in the San Joaquin Valley of California, and there I went through one of the low periods of my life. It was not that Lemoore was bad, for the people were wonderful—but war was getting closer and closer, and I was getting farther from combat duty. Finally, after war had opened on December 7, I began to write Generals all over the country in an effort to get out of the Training Center. After all, I had been an instructor for nearly four years and it was pretty monotonous. I knew that instructors were necessary, but I wanted to fight, and I thought that if I could get out to fight with my experience, I could come back later on and be even more valuable as an instructor of fighter pilots.

At last things began to happen. On December 10, I was hurriedly ordered to report to March Field. When these secret orders came, I thought the day for my active entry into the real war was near. Hardly taking time to get my toothbrush—the radiogram said, "immediately"—I jumped into a car and drove madly through the Valley and over the pass of Tejon through the snow at the summit at nearly ninety miles an hour, to March Field. I arrived there in a blackout, and though I was to see plenty of combat later on, I'll take an oath that the nearest I've been to death in this war was when I rode into March Field with my lights out, trying to follow the line in the highway that was not there. Army trucks went by with dim, pin-point blue lights, and as I looked out of my car the trucks would almost hit me.

When I finally got on the post with my radiogram for admission, I tore up to the headquarters and operations office, expecting any minute to be told to jump in a P-38 or a P-40 and go up to protect Los Angeles. There were many others like myself, for apparently all pilots with pursuit experience had been assembled.

No one knew what we were to do. No one knew we were supposed to be there. We could get no flying time, and some of the old pursuit pilots hadn't been in a single-seater for years. We waited and waited while rumors increased. Some said we were going to the Philippines by carrier; some ventured that our destination was Java or Australia. Since then, I have seen some of the men in India and China. Their ways to war must have been as circuitous as mine.

Squadrons of pursuit planes would come through daily on the way up the coast and we all grew envious watching them. The only cheering thing was the radio broadcast which told of Capt. Colin P. Kelly and his crew sinking the Jap battleship Haruna. In this engagement Kelly became the first hero of the war, and I was very proud. For Captain Kelly had been under my instruction at Randolph Field. I could well remember that fine student's excellent attitude for a combat pilot. He had broken his collarbone in a football scrimmage at Randolph and had told no one on the flying line. Looking in the rear-

view mirror, I saw him flying with his left hand on the stick; when I corrected him, I learned of the accident. Fighter Kelly had been so anxious to get on with the course of instruction that he was completely ignoring broken bones. Of such material are heroes made.

As the days went on we noticed that pilots whom we had trained were doing the things in this war, in every theater, with the few airplanes we had. It was some consolation to know that we had trained the youngsters who were sinking the Jap ships and shooting down the enemy planes. But it was not enough.

"I still wanted to fight myself. I could well remember the years and years I had trained in Panama with the 78th Pursuit Squadron; I had always been too young to lead an element, a flight, a squadron, or

anything. Then suddenly I was told here that I was not only too old—imagine that, at age 34!—to lead a squadron, but also too old to lead even a group. In fact I was too old to fly a fighter plane into combat. I used to tell the Generals that from being too young, I had suddenly jumped to being too old. There had never been a correct age.

But all the argument was to no avail, and after waiting around March Field for ten days we were ordered back to our home stations. I returned to Lemoore in the San Joaquin. I know there was no man on Bataan any sadder that night than I. Then came orders to report to Victorville—at least here was a change, and I welcomed it. I found myself director of training in a twin-engine school—I was still getting farther and farther from the war.

WHAT'S BUZZIN'!

By CHERIE.

Strictly Incidental . . . Grace Greeson birthday'd December 1 and the U. S. O. gang showered her with handkerchiefs! (They should come in handy the way the colds have been going around!) . . . Mrs. Kenny Schwab and little Mickey arrived from Berkeley, Calif., last week to be with Kenny, who is stationed here in the Navy . . . Buss and Kay Curran are vacationing for two weeks and are gift shopping . . . Never realized before just how many talented people there are in Ocean Beach—just not to speak of actual celebrities! . . . Mrs. Miltonberger says she hopes it won't be long before she can toss that diet out the window, or trade it in on a good steak! . . . As for me, I sure love spaghetti, but I do lose my dignity when I eat it! (Oh well, maybe it looks well on me!) . . . Seems like everyone is sniffing and blowing these days, but we don't seem to mind it, 'cause our minds are on what we should buy for Aunt Susie and Uncle Tim' . . . Al Hunt and Johnny Johnson (Cache of Sweets) are working on a brand new brain child for their window. Watch for it any day now! . . . Midge Frank is shopping for "baby togs" . . . Ditto, Margie Stuckey. . . Strand Radio Shop is literally a Toyland this year. You should find that interesting game or toy there . . . They've done just about everything but slit Jack Noorda's throat! This time it's behind the ear. Let's hope this is the last time, Jack! . . . Pvt. Pat Hearn is here with his mother and father. Pat is with the Marines, and we believe everything is under control! . . . Coral Davis has been in the Coast Guard for about a year, but Hitler just found it out! We can expect anything now! . . .

Christmas Shopping . . . The early birds find that they are getting the worms this year, as merchandise is even more scarce than it was last year. However, the stores in Ocean Beach are still fairly well stocked, and as per usual, they present better values than are to be found in down town San Diego. It's only natural that we like to shop where we are known and where service is given with a smile, and little helpful suggestions are offered to aid us with our Christmas lists. . . .

"A speech is like the horns of a Texas steer—a point here and a point there, and a lot of bull in between!" (Kiwanis Magazine, Bookworms Corner) . . . The title of that new novel by John Steinbeck is "Cannery Row", which, as Californians at least will recognize, is the name of a street in Monterey, Calif. . . . Ben Ames Williams next one, "It's A Free Country," will be different. It contains brisk sentences, and no bad women! . . . And here is a word about William Saroyan's next effort. It will be either a play or a novel; in either case the title will be "The Bum's Rush", and the leading characters will be United States servicemen. . . . Blondie and Dagwood Bumstead, having appeared in a comic strip, movies and on radio, are now branching out into a novel. The author, Helga Lund, has titled same, "Blondie and Dagwood, (to avoid confusion!) . . . And now to find some lights for the Christmas tree. . . .

Orders for printed Christmas cards can be handled if they are placed at The News office in the next week. A few boxes of attractive cards remain which will be sold first come first served.—Ocean Beach News, 1922 Bacon Street.

Communication

Here's a suggestion for the 1944 holiday.

This Christmas, let's quit giving gifts to relatives and friends, just because they give unto us—and let's all make Christmas for the inviolated service-men and servicewomen in our hospitals. It seems to me that this would be ONE way in which we can show our appreciation of what they have done for us.—Geo. E. Holt.

Faithful Ostrich

The long-lived ostrich often reaches the age of 75 years, and commonly spends 65 years with one faithful mate. When hatching eggs (40-day period), the male and female take turn. Mother covers the eggs in daytime, while dad takes the "night shift."

In the nest are round eggs and oval ones. Males emerge from round eggs, females from oval-shaped ones.

Party Symbols

The origin of the Democratic and Republican symbols is attributed to Thomas Nast (1840-1902), famous cartoonist. He is said to have used the donkey to represent the Democrats in a cartoon published in Harper's Weekly in 1870. The elephant as a party symbol was born four years later. Following a false rumor that summer that all the animals had escaped from the New York zoo, Nast assembled the animals of the forest to represent a Democratic nightmare and in this cartoon the elephant was labeled "The Republican Vote."

Penicillin

Penicillin cannot be taken by mouth, for stomach acids destroy it. In some cases where the patient need not stay in bed, penicillin is injected into the muscles every three or four hours, and is absorbed by the system. It can be applied locally to wounds, or injected into pus-containing areas and closed cavities. It can be dripped continuously, a drop at a time, into the veins or beneath the skin. All these methods require rather constant medical supervision, since the drug is excreted rapidly from the system.

STALIN IS A FIRST GRADE REALIST
MARSHALL JOSEPH STALIN considers himself a practical realist. His one purpose is the development of Russia and the advancement of the Russian people. In area he will reestablish the boundaries of the Russia of the czars, with the, at least temporary, exception of a portion of Finland.

Unlike Lenin, Stalin is not a promoter of world revolution. As a loyal disciple of Lenin he accepted communism. When, after the death of Lenin, he found communistic methods were retarding the development of Russia he discarded the rule of the soviets as a form of government and established a dictatorship. What the future government of Russia may be only time can tell, but while Stalin lives it will be a dictatorship, for he believes rapid progress in Russia calls for one-man decisions.

While Stalin lives I am convinced America will have no cause to fear a Russian directed communistic movement within our borders. That does not mean we may not have communistic effort and agitation. Such as we may have will be instigated by our own radicals and "pinks," and not by Russia. While only time can tell what conditions may follow the passing of Stalin, with the development he will give to Russia she will have, within a comparatively few years, both the manpower and the resources to be a formidable enemy in either, or both, Europe and Asia.

Stalin is not a man of ideals other than those he believes can be applied, in a practical way, to speed the development of Russia and the advancement of the Russian people. He sees only the tomorrows, not the today's, and only the tomorrows of Russia. He is not interested in France, the low countries, Norway or any other non-Slav nation other than as to what contribution they can make to the development of Russia. Russia will dominate, but not absorb, the Slav countries of central Europe. That dominance Stalin will demand and take, as he will demand and take the territory that before World War I was a part of Russia.

Stalin has not approved the provisions of the Atlantic charter. He has indicated these provisions would not, at the present, aid in the development of Russia or any practical advancement for the Russian people. What others may do about the application of those provisions in other countries in no way concerns him.

Stalin is intensely interested in payment by Germany for the damage done to Russia. He will enforce that payment in any and all ways he can find possible, regardless of what may, or may not, be done by Germany for other countries.

Yes, Stalin is a realist. A Russian realist. He sees as peace conditions and settlements only those desired by Russia. Those conditions he will demand or force. As to other conditions the victors may settle as they wish. At a peace conference he will be more of a problem than was Clemenceau following World War I.

COST OF GOVERNMENT BEFORE THE WAR
THE CENSUS BUREAU reports the American people spent a total of \$26,008,000,000 for government—Federal, state and local—during the 1941 fiscal year. Of that total the cost to the people for the Federal government amounted to \$13,850,000,000. That was more than the cost of operating all the state, county and municipal governments in the nation, including the cost of schools and police. Remember that was for the fiscal year ending June, 1941, before we were spending huge sums on war. The cost of operating the government of all the 48 states was \$5,375,000,000, and for the county and municipal governments, including schools and police, was \$6,783,000,000.

THE MANUFACTURER can produce 1,000 suits of clothes at a less cost per suit than he can produce 10 suits. When advertising has increased the demand from 10 suits to 1,000 suits it has lowered the production costs; has paid for itself, and lowered the cost to the consumer. The same thing is true as applied to any product, or to the sales effort of any merchant. Advertising decreases, rather than increases, costs, despite the ravings of theoretical economists.

IN 1934 THE FEDERAL government contributed to the aid of the American farmer \$775,000,000. In 1940 the amount had grown to \$1,559,000,000. To write and sign the millions of checks used in the distribution of such vast sums was the work of a large battery of automatic machines. These machines produced and signed better than six million checks, payable to individual farmers. They varied in amount from a few dollars to some of many thousands. The average check was for about \$350.

Jasper—Yeah, with an all-star cast, too!

Like Tastes
An attractive girl and a plain, middle-aged spinster were waiting for a bus.
"Have a cigarette?" asked the girl, smiling.
"What? Smoke in public?" exclaimed the woman, shocked to her depths.
"Why, I'd sooner kiss the first man who came down the street!"
"So would I," retorted the girl. "But have a cigarette while you're waiting!"

Heavy Adversary
Tim—Look, Daddy, I pulled this cornstalk up all by myself.
Daddy—My, what a strong boy!
Tim—Sure. The whole world had hold of the other end.

Surprise
"That man," said Smith, "came to this town 20 years ago, bought a wheelbarrow, and began collecting rags. What do you think he's worth today?"
"I couldn't guess," confessed Jones.
"Nothing," said Smith. "And he still owes for the barrow."

That Nagging Backache
May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-laxed and fail to filter excess acid and other impurities from the life-giving blood.

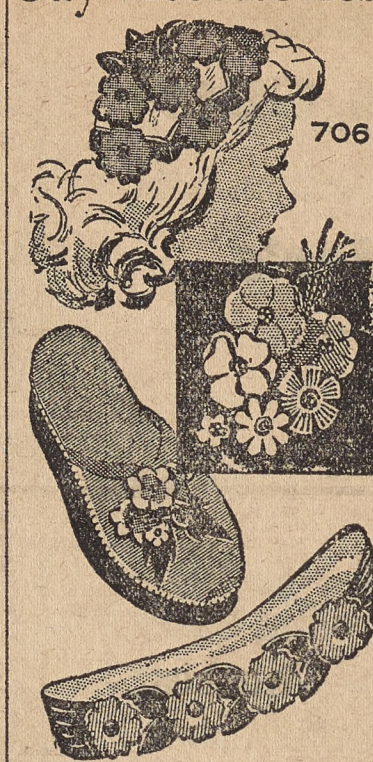

You may suffer nagging backache, headache, dizziness, getting up at night, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

HOUSEHOLD HINTS

To prevent the gloss from coming off white paint, wash with milk and very little soap.

Prevent picture marks on the walls by placing thumb tacks in each of the lower corners of the frame. Let tacks extend partly, keeping frame from wall.

Chimney soot can be kept down by throwing dry salt on a bed of hot coals, once or twice a week. Dry fuel and good draft helps to check soot and creosote in pipes and chimneys.

Never leave pieces of cut-up chicken in water. Some of the good juices and excellent flavor leaches out and is lost.

Boil the wick of a kerosene lamp in vinegar before using to keep it from smoking.

If you have had trouble in making your whitewash stick to trees, fences or basement walls try using sour milk or buttermilk instead of water to mix the lime. The casein in the milk acts as a glue with the lime.

Chicken Costs

Chickens usually cost less in the

fall when farmers are culling their

flocks to get rid of low producers

and looser flocks. Since food supplies

are so short this year and labor is

scarce, poultrymen will be even less

inclined to board nonproductive old

hens. Fortunately, too, old hens

process much more successfully

than young fowls. The canning time

is the same for both, and the young

chickens cook to pieces while the

older ones are tenderized just right.

So the Little Man Wasn't Going to Disobey Now!

An eastern potentate, who wanted to know how many men were afraid of their wives, sent for all his married subjects and commanded those who always obeyed their wives to stand on one side.

Promptly the crowd stepped over. That is—all but one man.

Seeing to his surprise that it was a very small fellow who stood apart from the others, the potentate asked him why such a puny individual as himself had a mind of his own.

"When I left home, your Majesty," explained the diminutive man, "I promised my wife that I would not go in any crowd."
